ORGANIZED AT LAST

Virginia, generally fair, possibly preceded this Formal Inauguration of the New District Court of Appeals.

Administers the Oaths to the New Justices and Makes a Few Remarks-The Court Room Crowded With Lawyers and Others Who Extend Congratulations to the Judges.

That for which the District has long fought is now an established fact, and the Court of Appeals of the District of Columbia is a part of its judicial system. The organization of the court took place

in the General Term Court room a few minutes after 11 o'clock in the presence of the largest gathering ever seen in the room. As would be naturally supposed, the members of the District bar formed the great majority of those present, but in the throng were innumerable laymen as well. The students of the law school of the Georgetown University, of the faculty of which Judge Morris is dean, also were present in large numbers to witness the ceremonies. So great was the throng that it filled the space in front of the bench, crowded into the space in front of and beside the bench, and overflowed away out into the corridors.

THE CHIEF JUSTICE OF THE UNITED STATES. At 11:15 the door at the right of the bench. opening into the consultation room of the Court in General Term, was thrown open.

Court in General Term, was thrown open and and Shepard, who stood at the right of the bench. Chief Justice Emgham and Justices Cox, Hagner, McComas and Cole of the District Supreme Court followed and stood to the left of the bench. As Chief Justice Fuller entered every one arose and remained standing throughout the brief ceremonies which followed.

"The court," announced Chief Justice Alvey "will now be further organized by the swearing in of its clerk, Mr. Robert Willett." The chief justice picked up a Bible, upon which Mr. Willett placed his hand and began the reading of the two oaths. He had hardly proceeded when he discovered, much to the amusement of every one, that he had picked up the wrong ones and stepped back for the right ones. CONGRATULATIONS IN OBDER. At the adjournment of the court those present, led by Chief Justice Bingham and the associate justices of the District Supreme Court, stepped forward and for the next twenty minutes the members of the new court were kept busily engaged in receiving congratulations. Mr. Platt has been trying to find out if Mr. Sherman really wrote the letter, and has come to the conclusion that he did. In a sarcastic vein Mr. Platt criticised himself for having the convention of 1888 and the election of Har-rison, and criticised Senator Sherman for his political methods and for the authorship of the Sherman silver act. "Do you now think the letter was written by

Mr. Sherman?" he was asked. "I guess it may have been written by him at some time in the past," he said, "but I am very sure that it does not at all represent Senator Sherman's present feelings toward me. He did not write it recently. The date, at all events, was forged. Still, I have reason to fear that subsequently to the republican national convention in 1888 Mr. Sherman's sentiment for me was not precisely amiable. It bears on the authenticity of the letter, moreover, that he has not taken the trouble to deny it."

Atter comparing himself from different points of view with Tammany Hall Mr. Platt

Sherman and myself.

We agree that it is a good thing to keep on top, and I wish I had the Senator's art of sentiment, and I wish I knew how to attune my views to the varying currents of popular opinion with that ready skill and easy consistency which so highly distinguish the Senator. The art which enables a man to frame and ready skill and easy was false. frame and pass a bill in the interest of free silver while retaining the reputation of a sound financier and the leadership of the gold monometalists, is really a very useful art in politics. "I don't know any other man who, without working his immediate ruin, could be resposible for a law making it eternally mandatory upon the United States to spend not want and cannot use, in the effort to accomplish a result which everybody admits to be impossible, and yet Senator Sherman is more admired today than he has been at any point in his long and magnificent career. The respects in which I differ from the Senator are grievously to my disadvantage.

I am impulsive, whereas the Senator possesses in the highest degree the power of self-restraint.

"I throw myself hotly into every campaign,

working as eagerlyto elect a justice of the peace meeting of a republican convention which occurs in a Presidential year. I really think if I only possessed the calm reserve, the power of insight into the future, the quality of moving with the tide, and if only I could get rid of superfluors calories. if only I could get rid of superfluous caloric, some kind friend might honor me by saying that as between John Sherman and Tom Platt formation he wouldn't care the toss of a copper."

What Senator Sherman Says. Senator Sherman, referring to this matter today, said to a STAR reporter that he does not remember having written such a letter, and yet he did not care to deny that he had. He could not say whether he had written it or not. The ever, and he was not aware of any ill feeling
